Navigating the App to Find Your Balance

Once logged in, your account dashboard is usually the first thing you see. Your current balance, remaining data, and other key inclusions are typically displayed prominently. You can often tap on these sections for a more detailed breakdown of your usage and remaining allowances. This is also where you can:

1. View your current plan details
2. Check your data usage
3. See your call and SMS history
4. Recharge your prepaid service
5. Manage your account settings
6. Access customer support

The My Optus app is incredibly user-friendly and designed to provide quick access to essential information. It's especially useful for those who want a holistic view of their Optus services.

2. USSD Codes: The Classic, Speedy Method

For those who prefer not to download another app or are in a situation where app access might be limited, Unstructured Supplementary Service Data (USSD) codes are a lifesaver. These are simple codes you dial on your phone's keypad, and they instantly provide you with the information you need.

How to Use Optus USSD Codes

Dialling a USSD code is straightforward. Open your phone's dialler, type in the specific code, and press the call button. A message will pop up on your screen with your Optus balance information. While Optus occasionally updates these codes, a commonly used one for checking prepaid balance is:

Dial: *178#

After dialling this code and pressing call, you should receive an SMS or an on-screen message detailing your remaining credit, data, and potentially other key plan inclusions. It's a quick, no-fuss way to get essential balance information on the go.

Tip: It's a good idea to save this USSD code in your contacts for easy access in the future. You might also find other useful Optus USSD codes for different services, so keep an eye on the Optus website for the most up-to-date information.

3. Optus Website: Your Online Portal

If you prefer using a web browser, the Optus website offers a robust online portal where you can manage your account, including checking your balance.

Logging into My Account on the Optus Website

You can check these via:

4. **Explore Data Top-Ups:** If you're on a prepaid plan and running low on data, Optus offers various data top-up options that can be purchased through the app, website, or by dialling a USSD code.
